INTRODUCTION

Everest Cuisine is a restaurant located at 1846 Carling Avenue. It serves a mix of Indo-Nepalese Chinese and sushi dishes. Upon identifying the top-level processes of the organization, and mapping the process into strategy, core, and support processes, we have identified that Everest Cuisine is facing problems with two of their top-level processes.

For the seamless operation of the business, we have recommended the following Management Information System for Everest Cuisine.

- A. Order To Cash Odoo
 - B. Hire to Retire Homebase

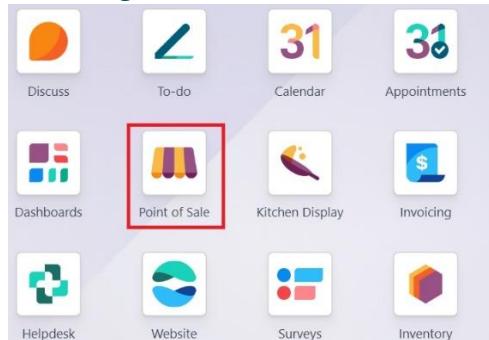

ORDER TO CASH using Odoo

Currently, Everest Cuisine is using SoftPOS for Order to Cash. SoftPOS has several disadvantages like limited customization options, lack of advanced reporting and analytics features, and restrictions on high-value transaction amounts and frequency. These drawbacks have created hindrances for Everest Cuisine. Hence, we have recommended Odoo as MIS for their Order to Cash process.

Configuration of Applications

Seamless Integration of Odoo in Everest Cuisine Order to Cash starts with configuring Point of Sale and Kitchen Display applications.

Installing Point Of Sale

Products(Menu)

The products/dishes available for sale purposes in Everest Cuisine can be uploaded in POS from the **PRODUCTS** module.

 Point of Sale Dashboard Orders Products Reporting Configuration
Point of Sale 

Everest Cuisine Ottawa
Self Ordering Enabled

[New Session](#) Closing: 04/09/2024
Balance: 0.00 \$

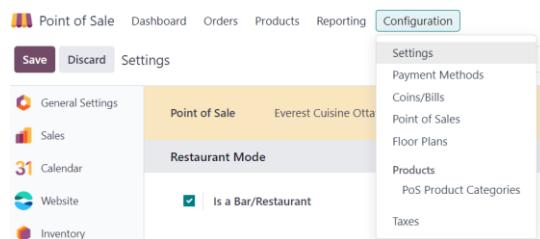

- Products
- Product Combos
- Pricelists

Uploading products requires defining numerous attributes like **Product Name**, **Sales Price**, **Product Image**, **Product Type**, and **Product Category**.

All / Saleable / Authentic Nepale...	All / Saleable / Drinks	All / Saleable / Hearty Hakka	All / Saleable / Sushi Bar	All / Saleable / Touch of India	All / Saleable / Touch of Nepal
 Everest Jhol Momo Price: 13.99 \$	 Coke Price: 2.99 \$	 Chicken Chow Mein Price: 17.99 \$	 Tiger Shrimp Roll Price: 12.99 \$	 Butter Chicken Price: 19.99 \$	 Everest Sekuwa Set Price: 24.99 \$

 Namche Chilli Momo Price: 14.99 \$	 NEPALI AROMATIC MILK TEA (CHAI/CHIYA) Price: 2.99 \$			 Garlic Naan Price: 3.99 \$	 Wai Wai Sadeko Price: 7.99 \$
 Pokhara Kothey Momo Price: 13.99 \$	 PEPSI Price: 2.99 \$			 Tandoori Chicken Price: 23.99 \$	
				 Veg Biryani Price: 15.99 \$	

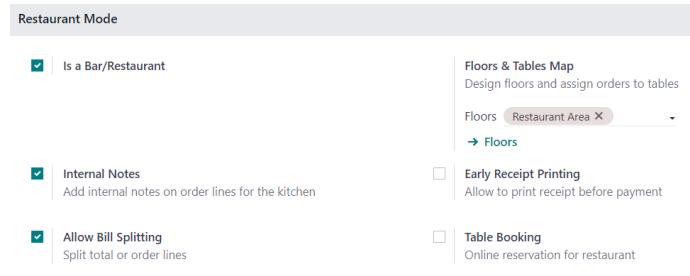

POS Settings

From **CONFIGURATION** and **SETTINGS**, several features of POS can be adjusted. These features displays the flexibility of Odoo.

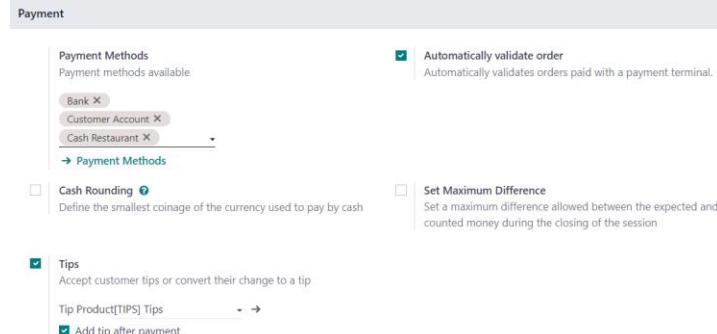

A. RESTAURANT MODE

Restaurant mode enables Everest Cuisine to design Restaurant View (Tables, Bars) as per the shop location, take internal notes, allow bill splitting, book tables, and different other settings.

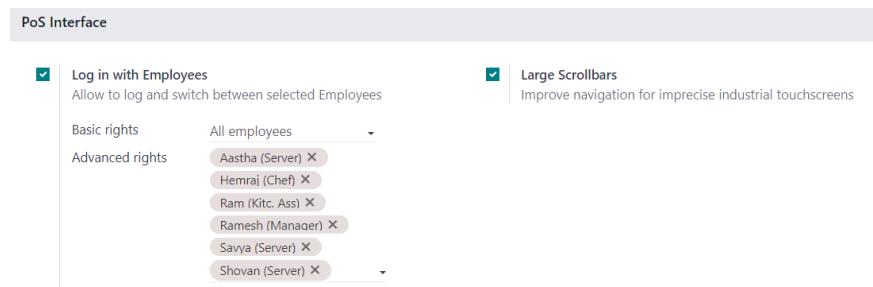

B. PAYMENT

Everest Cuisine can define the payment methods that will be accepted in POS and set up TIPS.

C. POS INTERFACE USER SETTINGS

Users/employees who can access or create a POS session and their rights can be assigned through the POS Interface.

Setting up KITCHEN DISPLAY

The **Kitchen Display** in Odoo is linked with **POS**. It is a special application useful for the restaurant business.

Several Preparation Displays can be created in the Kitchen Display. Each display is a station in the kitchen of Everest Cuisine where meals are prepared. For Example: **Tiger Shrimp Roll** will be prepared only in **Sushi Bar**.

The screenshot shows a grid of four preparation stations:

- Drinks**: Status: In progress, Average time: 0' 0". Buttons: To cook, Ready, Completed.
- Sushi Bar**: Status: In progress, Average time: 0' 0". Buttons: To prepare, Ready, Completed.
- Stove 1**: Status: In progress, Average time: 0' 0". Buttons: To prepare, Ready, Completed.
- Stove 2**: Status: In progress, Average time: 0' 0". Buttons: To prepare, Ready, Completed.

Each station has a "Open Preparation Display" button and a link to "Open customer display".

DEMO for ORDER TO CASH

Starting up a Session

When the restaurant is opened for business, a new session is started.

The screenshot shows the Point of Sale interface with the following details:

- Point of Sale: Self Ordering Enabled, Opening Control.
- Session: Closing Balance: 0.00 \$, Date: 04/09/2024.
- Action: Open Session (highlighted with a red box).

The user/employee shall log in to the session.

The image contains two parts:

- Left Side:** A login screen for "Everest Cuisine Ottawa" with options to "Tap to Scan" or "Scan your badge".
- Right Side:** A list titled "Change Cashier" showing six cashier profiles with arrows for selection.

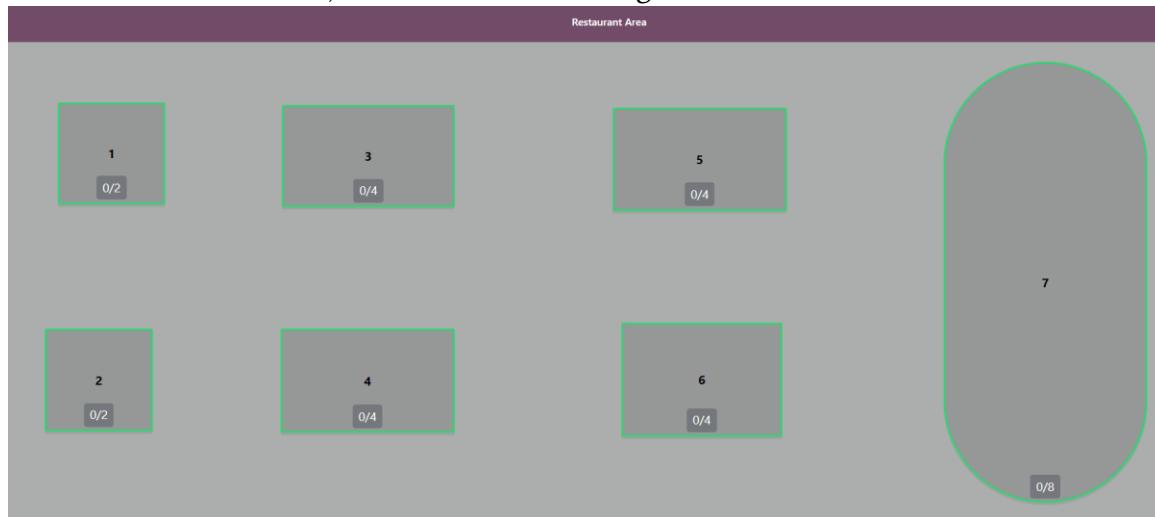

To control the track of cash flow in the business, Odoo offers a unique function where the employee can record the amount of cash when the session is started.

The screenshot shows the "Opening Cash Control" and "Coins/Bills" sections:

- Opening Cash Control:**
 - Opening cash: 0.00 \$.
 - Opening note: Add an opening note... (empty field).
 - Action: Open session (highlighted with a red box).
- Coins/Bills:** A table showing cash denominations and their counts:

	-	0	+	Total
200.00 \$	-	0	+	0.50 \$
100.00 \$	-	0	+	0.25 \$
50.00 \$	-	1	+	0.20 \$
20.00 \$	-	1	+	0.10 \$
10.00 \$	-	1	+	0.05 \$
5.00 \$	-	0	+	0.02 \$
2.00 \$	-	0	+	0.01 \$
1.00 \$	-	0	+	1.00 \$
- Total:** Total 80.00 \$

Once the session is started, the restaurant area configured on the Restaurant Mode>Floors and Tables Map will be displayed.

Taking Orders

The customer will be seated on the table and orders will be placed according to the seating arrangement of respective customers.

Let us suppose that there are 4 customers at Table No. 6. They ordered the following dishes :

1. Pokhara Kothey Momo
2. Mango Lassi
3. Chicken Manchurian
4. Tiger Shrimp Roll
5. Wai Wai Sadeko (Less Spicy)

After the server clicks on Table No. 6, he/she can input the number of guests and ordered items in POS.

Item	Description	Price
Pokhara Kothey Momo	1.00 Units x 15.81 \$ / Units	15.81 \$
Mango Lassi	1.00 Units x 5.64 \$ / Units	5.64 \$
Chicken Manchurian	1.00 Units x 20.33 \$ / Units	20.33 \$
Tiger Shrimp Roll	1.00 Units x 14.68 \$ / Units	14.68 \$
Total:	56.46 \$	
Taxes:	6.50 \$	

Regarding the special request of the customer for Wai Wai Sadeko (Less Spicy), the server can use the **Internal Note** functionality to inform the kitchen.

Add Internal Note

The screenshot shows the Odoo POS interface. On the left, there's a note input field containing "less spicy". To the right, the order details are displayed: "Wai Wai Sadeko" at a price of "1.00 Units x 9.03 \$ / Units" with a total of "9.03 \$". Below the order, a blue button labeled "less spicy" is visible. A small "Ok" button is located in the top-left corner of the note input area.

Preparing Food

When the order is placed from POS, they are coordinated with the **Kitchen Display** application and displayed on the **Preparation Display**. The food item ordered goes exactly to the defined Preparation Display as per their food category.

The screenshot shows three separate preparation stations. Each station has a header with "T6 #804" and "Amisha S" along with a paw icon and a timer. The first station shows "To cook" and "1x Mango Lassi". The second station shows "To prepare" and "1x Tiger Shrimp Roll". The third station shows "To prepare" and two items: "1x Pokhara Kothey Momo" and "1x Wai Wai Sadeko" (with a "less spicy" note). All stations have a timer of 0'.

The cooks/chefs from respective preparation stoves will prepare the food and click on the interface through which the server gets to know the order is prepared and serves the order to the customer.

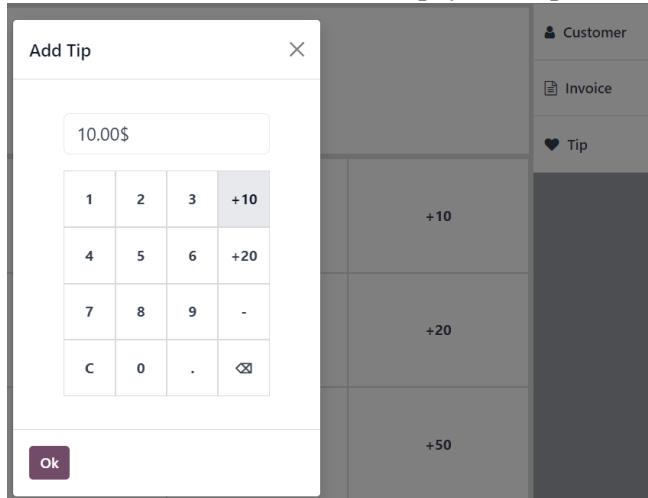

The screenshot shows the same three preparation stations after some time. The first station now has a "Ready" button. The second station also has a "Ready" button. The third station has a "Ready" button and the "less spicy" note is still present. The timers remain at 0'.

Receiving Payment

Now the customer has completed the food and wants to initiate the payment. Odoo POS offers several payment options, gives a tipping option, and even sends the invoice to the customer if the customer's information is uploaded to the database.

The screenshot shows the Odoo POS interface with a red box highlighting the "Payment" button in the bottom-left corner of the main screen. The main screen displays a summary table with columns for "Pricelist", "Customer Note", "Quotation/Order", "Internal Note", "Bill", "Split", "Guests", "Transfer / Merge", "Customer", "Refund", "Save", "Qty", "Disc", and "Price". The payment screen on the right shows a total of "65.49 \$" and a note "Please select a payment method." It includes a numeric keypad for entering amounts and buttons for "Customer", "Invoice", and "Tip".

Let's suppose that the customer wants to pay through Bank i.e. card and wants to give \$10 as a tip. The customer can select the amount, server can select the payment option.

Odoo even provides a **Customer Screen** feature where customers can view the details of the items they are paying for. The customer view for this transaction will be displayed below.

Your Order			
Product	Quantity	Price	
Pokhara Kothey Momo	1.00 Units	15.81 \$	
Mango Lassi	1.00 Units	5.64 \$	
Chicken Manchurian	1.00 Units	20.33 \$	
Tiger Shrimp Roll	1.00 Units	14.68 \$	
Wai Wai Sadeko	1.00 Units	9.03 \$	
[TIPS] Tips	1.00 Units	10.00 \$	

Total: **75.49 \$**

Change: **0.00 \$**

Powered by **odoo**

The server can even select the customer (if the customer's information is uploaded to the database) and close the tab to validate the payment.

odoo 6 < Change table

Prabesh

Invoice

Tip (10.00 \$)

Once the payment is received, the following message will be displayed and Odoo can even send the invoice to the customer's email address and save it in the storage device of the restaurant.

The screenshot shows the Odoo Point of Sale (POS) interface. On the left, a "Payment Successful" message is displayed with a "Print Receipt" button. The receipt shows an email address: raiprabesh789@gmail.com. Below this is a "New Order" button. On the right, an "Invoice INV/2024/00016" is shown with the following details:

Invoice Date:	Due Date:	Source:	Reference:	
04/12/2024	04/12/2024	Restaurant/0018	Restaurant/0018	
DESCRIPTION		QUANTITY	UNIT PRICE TAXES	AMOUNT

			Total	75.49 \$
			Paid on 04/12/2024 using Bank	75.49 \$
			Amount Due	0.00 \$

At the bottom, there are two addresses: everestcuisine@gmail.com and Everest Cuisine, 1846 Carling Avenue, Ottawa ON Canada. A red notification box with the number "1" is visible in the top right corner.

Closing Session

When the server wants to close the session, Odoo helps to control the cash flow by providing the difference between the amount recorded in the cash register and payment received through items/ dishes sold.

The screenshot shows the "Closing Session" screen. At the top, there are tabs for "Savya (Server)", "Customer Screen", and "Closing Session". The "Closing Session" tab is active, showing the following data:

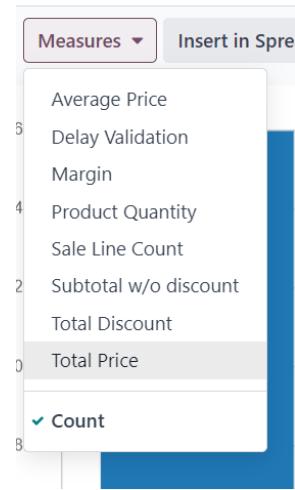

Orders	Payment Method	Expected	Counted	Difference
Cash In/Out	Cash Restaurant	155.49 \$	155.49	0.00 \$
Hide Product Images	Opening	0.00 \$		
	+ Cash difference observed during the counting (Profit) - opening	80.00 \$		
	+ Payments in Cash Restaurant	75.49 \$

Reporting

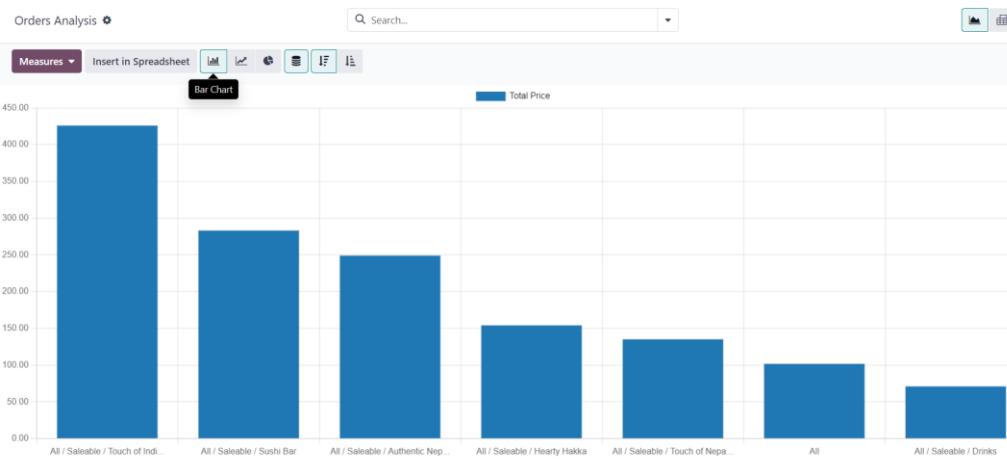

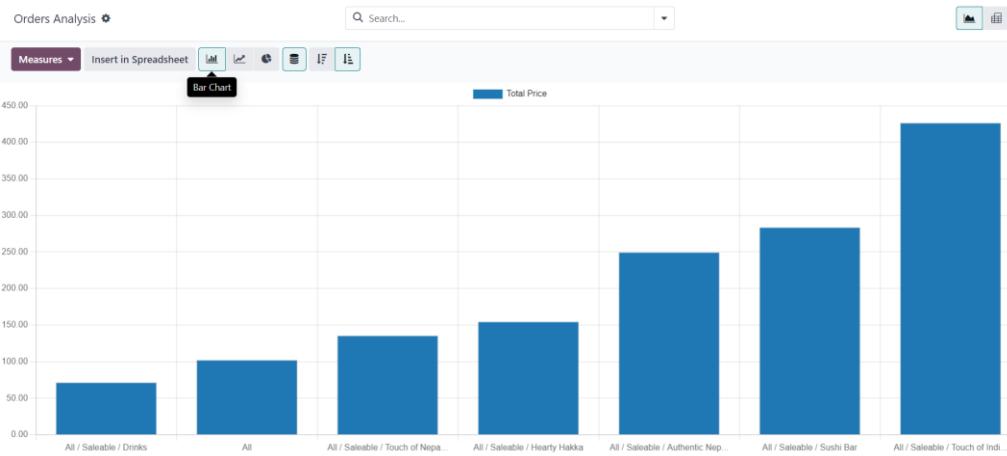

Odoo records the sales of different products and provides a detailed report for the data.

Visualization

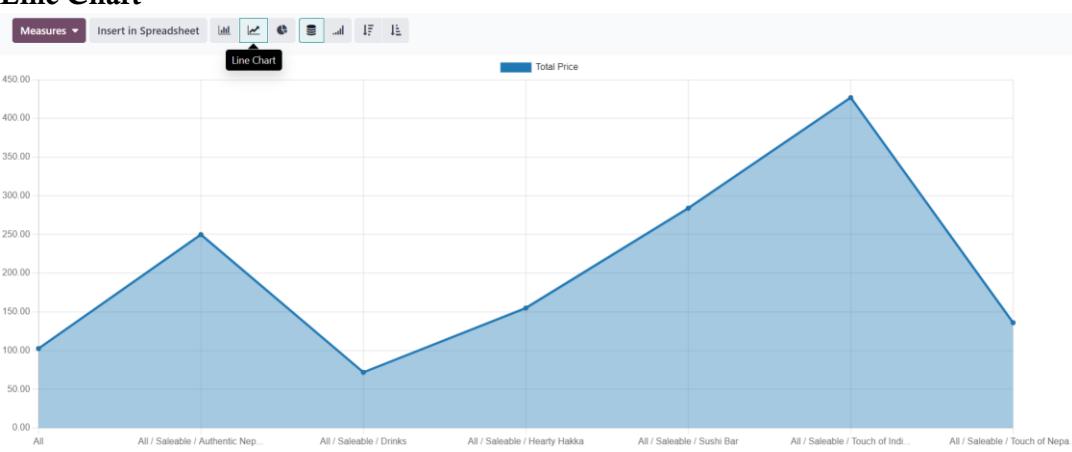

Everest Cuisine can analyze through the different visualizations and utilize data for business decisions. They can even export the data into spreadsheets for use in Business Analysis. Odoo can generate reports and visualization on different KPIs.

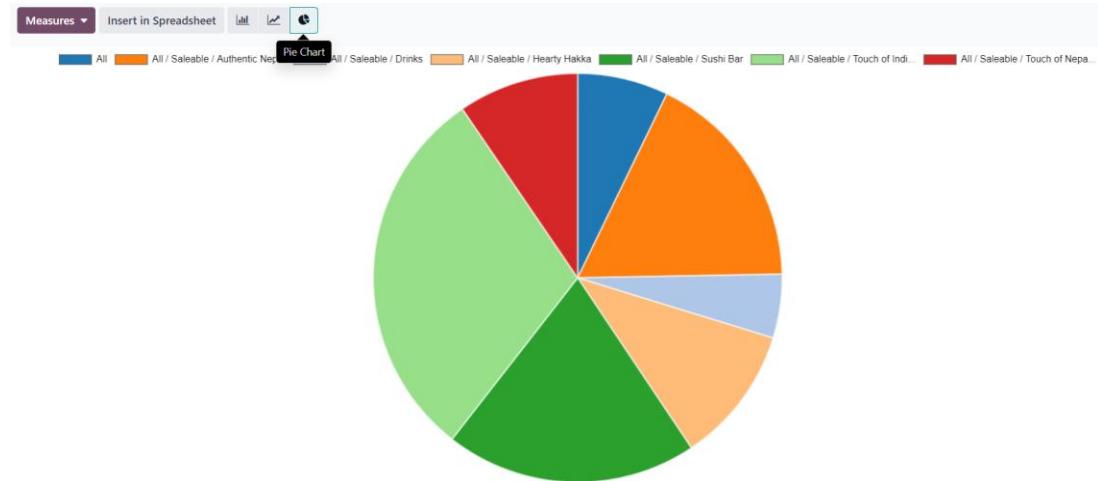

Bar Graph

Line Chart

Pie Chart

Sales Report

Odoo can generate sales reports of Everest Cuisine from a certain date.

The Sales Details dialog box allows users to select a start date and end date for generating a sales report. The current start date is 04/02/2024 23:26:01 and the end date is 04/12/2024 01:26:02. The Point of Sale is set to Everest Cuisine Ottawa. A calendar is displayed for April 2024, with the 2nd highlighted in blue. Buttons for Print and Cancel are also present.

A detailed report will be generated including Sales, Taxes on Sales, Payments, and Discounts.

Session Report

The Session Report dialog box displays a list of POS sessions. The current selection is POS/00018. Other sessions listed include POS/00017, POS/00016, POS/00015, POS/00014, POS/00013, POS/00012, and POS/00011. A search bar at the bottom allows for finding specific sessions by name. Buttons for Print and Close are also present.

HIRE TO RETIRE using Homebase

Everest Cuisine uses **Google Docs** and **Google Sheets** for Human Resource Management from Hire to Retire. To overcome difficulties like Employee Documentation, Employee Scheduling Issues, Lack of Proper Clock Timing records, Time-Consuming, and Difficulty in Managing Changes, we have recommended Everest Cuisine to use Homebase.

Homebase is a cloud-based time tracking and scheduling solution that helps human resources personnel organize and manage employee schedules, timesheets, and payroll. It caters to businesses in industries such as food service, retail, healthcare, software, and more.

Demo for Hire to Retire

Let's integrate Everest Cuisine's details on Homebase and start the Hire to Retire process.

JOB VACANCY

If Everest Cuisine is looking to grow its team, with the help of Homebase they can easily create job descriptions and post open roles to multiple online job boards. Managers from Everest Cuisine can also message, interview, and hire applicants directly from their Homebase account.

Post Job Vacancies

Through the **JOBS** module, Everest Cuisine can create their job post, or select the templates with job descriptions for the restaurant.

Homebase offers options to add screener questions to get to know more about their candidates.

Add screener questions

Applicants' answers will appear on their applications in Homebase. [Learn More](#)

The screenshot shows a modal window with a question: "1. The task can be monotonous; how do you expect to stay efficient?". Below the modal is a button labeled "+ Add question". At the bottom are two buttons: "Skip and Submit" and "Submit".

After submitting, the job is posted. Homebase hiring is completely free and partners with different job boards like Indeed, Glassdoor, Facebook, and ZipRecruiter to post jobs. Everest Cuisine can choose where they want their vacancies to appear. They can even share their job posts on their social media.

The screenshot shows a success message: "Your job has been posted!". It includes a link to "View job post here" and a list of posting locations: Google jobs (Today), Facebook (Today), ZipRecruiter (1-3 days), and Indeed (1-3 days).

Get more candidates

The screenshot shows a "Share with your team and on social media" section with buttons for "Share with Team" and social media platforms: Facebook, Twitter, and LinkedIn.

[View Applicants](#)

View Applicants is a module in Homebase where Everest Cuisine can manage and filter the applicants.

The screenshot shows the "View Applicants" module. On the left, there's a sidebar with links: "Hiring", "Jobs", "View Applicants" (which is highlighted in purple), "Interviews", and "Career Page". The main area shows "1 Applicant" and a "Sort By Relevance" dropdown. A button "+ Add an applicant" is visible. Below it is a card for "Amisha Shrestha" (Applied 13 days ago). The "View Applicants" link in the sidebar is also highlighted in purple.

Everest Cuisine can review applications and resumes in the applicant's profile. They can even send a direct message to the candidate. They can type out their messages or select a template.

The screenshot shows an applicant profile for Amisha Shrestha. At the top, there is a circular profile picture with the letters 'AS'. Below it, the name 'Amisha Shrestha' is displayed, along with a phone icon and the number '(123) 456-7890', an email icon and the address 'amisha.shrestha12345@gmail.com', and a location icon indicating '2320 miles away'. To the right of the name are two thumbs-up and thumbs-down icons, followed by a dropdown menu set to 'Applied'. Below this section are three buttons: 'Message', 'Interview', and 'Add Notes'.

Under the heading 'EXPERIENCE', there is a box containing the text 'Cashier at Acme Co.' and 'Jan 2023 - Dec 2023 • 1 year'.

The 'DESIRED WAGE' section shows '\$16.33'.

The 'TRANSPORTATION' section lists 'Bus/Rails'.

The 'AVAILABILITY' section shows a weekly calendar grid from Monday to Sunday. Each day has a light blue circle above it and a dark purple circle below it. The days from Monday to Friday each have a small orange circle with a 'C' icon at the bottom. Saturday and Sunday each have a dark purple circle with a white 'C' icon at the bottom.

Below the availability grid, under 'IN THREE WORDS...', the text 'I am... enthusiastic, hardworking, punctual' is listed.

On the right side of the profile, there is a text input field with the placeholder 'Type below or pick a template:' and two green rounded rectangular buttons: 'Interested' and 'Set Up Call'.

A large green button at the bottom right contains the text 'Send' with a hand cursor icon.

Schedule Interview

Through Homebase, Everest Cuisine can schedule interviews with their applicants. Everest Cuisine can enter the date, and time, choose the Interview Type, and can even add a note with more information about the interview.

The screenshot shows the interview scheduling interface for Amisha Shrestha. On the left, there is a circular profile picture with the letters 'AS', the name 'Amisha Shrestha', and contact information: '(123) 456-7890', 'amisha.shrestha12345@gmail.com', and '2320 miles away'. Below this are three buttons: 'Message', 'Interview', and 'Add Notes'. To the right of the contact info is a dropdown menu showing the status 'Applied' at the top, followed by 'Interviewing', 'Hired', 'Declined', and 'Archived'.

In the center, a section titled 'When is your interview with Amisha?' asks for 'Date' (set to 'Apr 13, 2024') and 'Time' (set to '1:30 pm'). A purple 'Next' button is located below these fields.

At the bottom, there is a section titled 'Schedule an interview with Amisha Shrestha'. It includes a dropdown for 'Interview type' (set to 'In person'), a text field for 'Interview Location' ('Ottawa (Highland Park / Carlingwood), ON, K2A 1E2'), and a note area: 'Homebase will contact Amisha with the scheduled time and place. Add an optional note with more information about the interview to share with Amisha.' A large purple 'Schedule Interview' button is at the very bottom.

Homebase will send Everest Cuisine and their applicant confirmation and day-of reminders. In the applicant's profile, the interviewer can also add notes.

The screenshot shows the Homebase interface for interviewing a candidate. At the top left, there is a button labeled "INTERVIEWING". Below it, a section titled "Interviewing a Candidate" contains a message: "If you and the applicant have agreed on a day and time, let us know. We'll send you both confirmations and day-of reminders". There is a "Got it!" button and a link to "Don't show me this again.". To the right, a profile card for "Amisha Shrestha" is displayed, featuring a large blue "AS" monogram. The card includes contact information: phone number (123) 456-7890, email amisha.shrestha12345@gmail.com, and location 2320 miles away. Below the card are three buttons: "Message", "Cancel Interview", and "Add Notes". To the right of the card is a vertical sidebar with status options: Interviewing (selected), Interviewing, Hired, Declined, and Archived. A note in the sidebar says "seems like a great candidate". At the bottom right is a purple "Add Note" button.

Enrollment

Homebase offers features to add employees, document their information, upload documentation, and evaluate their performance.

Hiring

Homebase allows Everest Cuisine to add new employees to their team roster.

The screenshot shows the "Add a Team Member" form. It includes fields for First Name* and Last Name, Contact Information (Mobile Phone and Email Address), a checkbox for sending an app link (checked), and an Access Level section with "Employee" selected. Under Role and Wage, there is a search bar for roles and a wage input field (\$ /hour). Buttons at the bottom include "Save and Finish" and "Save and Add Another".

Everest Cuisine can set up their employee profile and update their roles, wages, payroll information, job history, time off balance, auto-schedule rules, and personal information. The information input in Auto schedule rules for an employee will help to configure AUTO SCHEDULE their shifts.

The screenshot shows the profile of "Sagar Shrestha" at "Everest Cuisine Ottawa". It includes basic info: phone number (123) 426-7890, email address, and a note that he was invited 13 days ago. There are "Terminate" and "Message" buttons. Below the profile are tabs for Job Details, Personal Information, Documents, and Performance. The "Job Details" tab is active.

Access, Roles & Wages

This screenshot shows the "Access, Roles & Wages" section for "Everest Cuisine Ottawa". It lists the primary location as "Everest Cuisine Ottawa". The table includes columns for Access (Employee), PIN (518484), Start Date (--), Payroll ID (--), and Role(s) & Wage(s) (Head Chef, \$30.00/hr). An "Edit" button is located in the top right corner of the table.

Payroll Information

This screenshot shows the "Payroll Information" section. It includes a "Payroll Classification" dropdown menu with options: "Select...", "W-2 Employee", and "1099 Contractor". At the bottom right are "Cancel" and "Save" buttons.

Shift Scheduling

From the SCHEDULE module at Homebase, Everest Cuisine can create a schedule for their employee in a few minutes.

Homebase allows Everest Cuisine to manually select time slots for their employee and manage their schedules for desired pay period.

Apr 29 – May 5	Week	Employee View	Today	Tools	Copy	Print	Publish (0)
MON 29	TUE 30	WED 01	THU 02	FRI 03	SAT 04	SUN 05	
Events							
Open Shifts 0.00 Hrs							

They can also copy the schedule from the previous week or continue with saved templates.

The screenshot shows the Homebase software interface. On the left, a sidebar titled 'Copy this week to:' lists shift periods: Apr 29 - May 05, May 06 - May 12, May 13 - May 19, May 20 - May 26, May 27 - Jun 02, and Jun 03 - Jun 09. The main area displays a weekly calendar for Friday, May 26, with various shifts assigned to employees. A 'Jumpstart Your Schedule' dialog box is open, prompting the user to 'Apply a template to get started on this week's schedule.' It lists available templates: Apr 01 - Apr 07, Apr 01 - Apr 07, Mar 25 - Mar 31 (Last Published), and Shifts. Below the calendar, a note says 'the Tools > Show/Hide section above'.

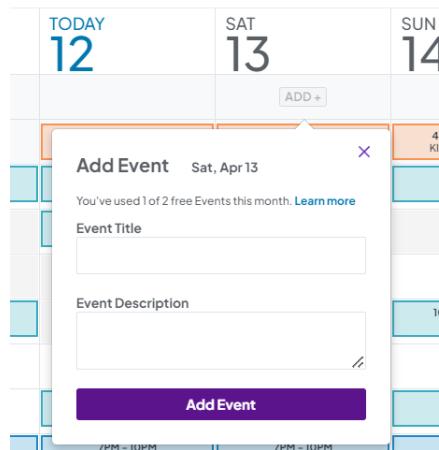

With the help of Homebase, Everest Cuisine can define open shifts for the weeks and auto-schedule the duty rooster for the employee. The auto schedule will use the information provided in the Employee Profile like Max Hours Per Week, Seniority, and Roles they can work on.

Employees can even request **Trade Shift** and **Cover Shift** with their team members from Homebase if they are not able to attend the shifts in case of an emergency.

Time Clock

Everest Cuisine can set up different Time Clock Options to record the shift in the Home base.

The screenshot shows the 'Time Clock Options' section of the Homebase app. On the left, a sidebar lists various management categories: Events & Trades, Time Tracking (selected), Time Clock Options (highlighted in purple), Overtime, Breaks & Compliance, Payroll, Payroll Settings, Team Management, Time Off, Team Messenger, Team Permissions, Manager Log, Account, Profile, Locations & PINs, Notifications, Security, and API Access. The main content area is titled 'Time Clock Options' and contains three sections: 'Mobile Time Clock' (with options for GPS capture and geo-fencing), 'Tablet Time Clock' (with an option for unscheduled shift role selection), and 'Web Time Clock' (with an option for launching from a computer). Each section includes a small icon and a 'Text me a download link' or 'Email me a download link' button.

Employees can clock in and out through the Homebase app. It can capture the GPS location for each clock in/out and any time they take their break. Everest Cuisine can even set a Geo-fence to limit where they can clock in from.

For this demo, we have installed a **Web Time Clock** for Everest Cuisine.

Which time clock would you like to use?

Shared time clock

Employees clock in with
PINs on a shared
computer.

Times Sheets

Homebase allows managers from Everest Cuisine to view the Time Sheets of their employees. Through the timesheets, they can determine their Actual vs Scheduled hours, OT hours, and Estimated wages which will help with payroll generation.

Date	Role	Wage rate	Time card	Issues	Scheduled hours	Actual vs. scheduled	Total paid hours	Regular hours	Unpaid breaks	OT hours	Estimated wages	Cash tips
+ Add time card												
Thu Mar 28	Server	\$16.77/hr	4:15pm - 10:00pm	--	5.75	0.00	5.75	5.75	0.00	0.00	\$96.43	\$0.00
Fri Mar 29	Server	\$16.77/hr	4:15pm - 10:00pm	--	5.75	0.00	5.75	5.75	0.00	0.00	\$96.43	\$0.00
Sat Mar 30	Kitchen Assistant	\$16.77/hr	10:30am - 4:30pm	--	6.00	0.00	6.00	6.00	0.00	0.00	\$100.62	\$0.00
Sun Mar 31	Server	\$16.77/hr	4:15pm - 10:00pm	--	5.75	0.00	5.75	5.75	0.00	0.00	\$96.43	\$0.00
+ Add time card												
Wed Mar 27	Kitchen Assistant	\$16.77/hr	10:30am - 4:30pm	--	6.00	0.00	6.00	6.00	0.00	0.00	\$100.62	\$0.00
Totals	5 Roles		59 Time Cards		316.75	-1.13	313.62	313.62	2.00	0.00	\$6,250.29	\$0.00

If the employee forgets to register/ clock in their shift, Everest Cuisine can review the genuineness and amend changes in their timesheets for the employee.

Payroll

Payroll can be integrated seamlessly with Homebase giving Everest Cuisine the complete tool to manage its team all in one place. Once the timesheets are reviewed, they can Run Payroll.

The employee hours will be displayed as per the recorded time sheets. Homebase automatically calculates the wages considering the overtime hours. Everest Cuisine can even choose to pay employees through direct bank deposit or paper cheque.

Employee	Role Wage Rate	Regular Hours	OT	PTO Used	Sick Time	Paid Holiday	Cash Tips	Payroll Tips	Other Earnings	Gross Wages vs. Last Pay Period	Payment Method
BG Bikash Giri	Kitchen As... \$13.25/hr	27.89	--	8	0	0	0	0	Bonus: \$100	\$575.56	Paper... ▾
EK Elisha Khatri	Server \$12.15/hr	29.96	--	16	0	0	21.54	0	+Add	\$579.96	Paper... ▾
HT Hemraj Thapa	Chef \$10.50/hr	28.15	--	0	0	0	15.12	0	+Add	\$310.71	Paper... ▾
N Nathan	Cleaner \$10.00/hr	37.05	1.05	0	0	0	18.78	0	+Add	\$405.03	Paper... ▾

Everest Cuisine can view their taxes, how much their employee earn and how much the payroll will cost them.

Employee	Gross Wages	Employee Taxes	Post-tax Deductions	Net Pay	Company Taxes	Company Benefits	Total Payroll Cost
BG Bikash Giri	\$575.56	\$82.43	--	\$493.13	\$63.02	--	\$638.58
EK Elisha Khatri	\$679.96	\$100.86	--	\$557.56	\$74.46	--	\$754.42
HT Hemraj Thapa	\$310.71	\$23.77	--	\$271.82	\$34.02	--	\$344.73
N Nathan	\$405.03	\$40.33	--	\$345.92	\$44.35	--	\$449.38

After reviewing and submitting the payroll will be completed securely from Homebase.

Payroll successfully submitted!

Continue

Homebase can securely store all the payroll history, download employee paystubs and email their paystubs. Employees can view the wages they are eligible for after attending the defined shifts and compare the wages with previous weeks.

<	Apr 1 - Apr 7	>

Message

Employees from Everest Cuisine can communicate with their team members through Homebase.

They can communicate with each other from either group or direct messaging features.

Messages

Communicate with your team on Homebase whether you're on the web or mobile app.

Message a Group

The entire team, people working today, managers, etc.

Message a Team Member

1 on 1 message with anyone on the team

Group Messaging

For Group Messaging, they can use **Message a Group** feature. They can customize the group members from different filters available.

This screenshot shows the 'New Message' dialog for 'Group Messaging'. On the left, there's a sidebar with a back arrow, the title 'Group Messaging', and three buttons: 'Everyone Working Today', 'Entire Team', and 'Create Custom Group'. The main area has a heading 'Select a Group' with several buttons: 'Celebration', 'Entire Team', 'Everyone Working Today', 'Everyone Working Tomorrow', 'Head Chef', 'Kitchen Assistant', 'Server', 'Chef', 'Cleaner', and 'Manager'. Below this is a link 'Show Less Groups'. A section titled 'Team Members Selected (4)' shows four names: 'AS Astha Shrestha' and 'BG Bikash Giri', each with a checkmark. There's also a 'Deselect All' link. At the bottom is a large purple 'Start Message' button.

Direct Messaging

From Homebase, employees can pass information and communicate with any team member to their requirements from **Message a Team Member** feature.

This screenshot shows the 'New Message' dialog for 'Direct Messaging'. It has a similar structure to the group messaging dialog, with a sidebar and a main 'Select a Group' section. The group buttons are identical: 'Celebration', 'Entire Team', 'Everyone Working Today', 'Everyone Working Tomorrow', 'Head Chef', 'Kitchen Assistant', 'Server', 'Chef', 'Cleaner', and 'Manager'. Below this is a link 'Show Less Groups'. A section titled 'Team Members Selected (1)' shows one name: 'AS Astha Shrestha' with a checkmark. There's also a 'Deselect All' link. A search bar 'Search Team Members' is present. At the bottom is a large purple 'Start Message' button.

Retiring

Sometimes Everest Cuisine may need to remove an employee profile from their Homebase account when an employee has decided to go on to another job or the managers had to fire an employee or various other reasons.

For this demo, we are going to terminate Astha Shrestha as she is going to another job.

Terminating

Everest Cuisine can simply go to the employee profile from **Team > Roster**.

The screenshot shows the Homebase interface with the sidebar menu open. The 'Roster' tab is selected. The main area displays a list of employees with their initials and names: AS Ajay Sharma and AS Astha Shrestha.

From the **Terminate** button at the top right corner of the employee profile, Everest Cuisine can terminate Aastha Shrestha.

The screenshot shows the employee profile for Astha Shrestha. At the top right, there are two buttons: 'Terminate' (orange) and 'Message' (purple). A tooltip for 'Terminate' says: 'Start the process of terminating the employee.' Below the buttons are tabs for Job Details, Personal Information, Documents, and Performance. Under 'Access, Roles & Wages', there is a section for 'Everest Cuisine Ottawa' with an 'Edit' button.

Homebase will give a warning where several information are displayed when an employee will be terminated from their account.

Managers can choose the reason for the termination of an employee. As Aastha is leaving Everest Cuisine for another job, the reason for termination will be Voluntary Resignation.

The left screenshot shows the 'Terminate Astha Shrestha' dialog with the following text:
When you terminate Astha:
• They lose access to all activity, such as schedules and messages.
• All scheduled shifts assigned to them will become Open Shifts.
• They will still be able to access their timecard and time-off history.
If the employee is eligible for rehire, you can rehire them from their profile.
 Don't show this message next time an employee is terminated

The right screenshot shows the 'Terminate Astha Shrestha' dialog with the following fields:
Reason for Termination: Voluntary Resignation
 Eligible for rehire
Termination Date: 04/12/2024
Notes: Add Internal Note (Optional)
Asta will be removed from Everest Cuisine Ottawa.

Managers can add some notes regarding the termination of the employee. These notes will remain on the employee profile and can be accessible for future reference. They can also choose whether the employee is eligible to be rehired.

The following popup will be displayed letting Everest Cuisine know that Astha was terminated from their Homebase account.

Astha was successfully terminated.

Do you need to hire a replacement?

E-Commerce

Everest Cuisine has an online presence and is partnered with food delivery services applications like DoorDash, UberEATS, and Skip where customers can order the food items they like and get them delivered to their homes, offices, etc.

Using Odoo, we have designed an e-commerce website (Business-to-Customer B2C) for Everest Cuisine where customers can order dishes directly from their website.

Setting up an E-commerce Website

With the help of a website application in Odoo, Everest Cuisine can easily design its E-commerce website.

Website Creation

Odoo offers different templates and tools from which Everest Cuisine can easily create an E-commerce website.

Website Link: <https://everest-cuisine1.odoo.com/>

E-commerce Product Categories

Products registered on POS can be directly integrated into E-commerce in Odoo. Everest Cuisine can also create different food categories so that visitors can easily navigate around the website and choose dishes as per their preferences.

New	eCommerce Categories	⚙
<input type="checkbox"/>	Display Name	
<input type="checkbox"/>	Touch of Nepal	
<input type="checkbox"/>	Authentic Nepalese Momo	
<input type="checkbox"/>	Sushi Bar	
<input type="checkbox"/>	Touch of India	
<input type="checkbox"/>	Hearty Hakka	
<input type="checkbox"/>	Drinks	

E-commerce Configuration

Everest Cuisine can configure the website name, webpages on the website, menus, different payment providers, and payment methods, for their e-commerce website.

Payment Providers	⚙	Search...
Wire Transfer	Enabled	Published
PayPal	Enabled	Published
Razorpay	Enabled	Published
New	Payment Methods	⚙
Name	Available methods	Search...
<input type="checkbox"/>	Card	<input checked="" type="checkbox"/>
<input type="checkbox"/>	Paypal	<input checked="" type="checkbox"/>
<input type="checkbox"/>	Wire Transfer	<input checked="" type="checkbox"/>
<input type="checkbox"/>	Netbanking	<input checked="" type="checkbox"/>
<input type="checkbox"/>	UPI	<input checked="" type="checkbox"/>

E-Commerce Demo

Visitors can get information about Everest Cuisine from their website regarding their specialty, menu, location, chefs, and many more.

They can order dishes from the menu section on the homepage.

The menu Page will display the gallery view of different dishes available at Everest Cuisine. Customers can choose dishes and place the order. Let us consider that they want to have Everest Jhol Momo.

They can initiate payment from checkout, define the payment mode and make payment for the dish.

The screenshot shows the Odoo Website's payment interface. At the top, there are navigation links: Home, Menu, Meet Our Chefs, Recommendations, and a red 'CONNECT WITH US' button. Below this is a search bar and a user icon. The main content area shows an order overview for 'Everest Jhol Momo' with a quantity of 1 and a total price of \$13.99. To the right, a 'Pay with' section titled 'CHOOSE A PAYMENT METHOD' offers three options: Card, PayPal, and Wire Transfer. Payment method icons for AMEX, DISCOVER, MASTERCARD, VISA, and PAYPAL are displayed at the bottom.

When the payment is received, Odoo Website displays a confirmation message.

Thank you for your order.

Integration of E-commerce Website

Upon receiving the payment an order is placed in the backend of the website. Everest Cuisine can view the order from **eCommerce>Orders**.

The screenshot shows the Odoo eCommerce Orders interface. At the top, there are tabs for Site, eCommerce (which is selected), Reporting, and Config. A sidebar on the left contains categories like Orders, Products, and eCommerce Categories, with 'Orders' currently selected. Below the sidebar is a search bar with filters for 'Confirmed' and 'From Website'. The main area displays a list of orders with columns for Number, Order Date, Customer, Salesperson, Activities, and Total. One order is listed: S00009, placed on 04/12/2024 at 16:09:12 by Amisha S, with a total of 14.69 \$.

Number	Order Date	Customer	Salesperson	Activities	Total
S00009	04/12/2024 16:09:12	Amisha S			14.69 \$

They will be able to validate the order, forward the order to the Kitchen, prepare the food, and assign the delivery to delivery guy at Everest Cuisine.

The screenshot shows the Odoo Order details interface for order S00009. At the top, there are buttons for Validate, Sign, Print, Print Labels, and Cancel, followed by status arrows for Draft, Waiting, Ready (which is highlighted in green), and Done. The order number is WH/OUT/00005. Key details shown include Delivery Address (Amisha S), Scheduled Date (04/12/2024 16:09:12), Deadline (04/12/2024 16:09:12), Product Availability (Available), and Source Document (S00009). Below this, there are tabs for Operations, Additional Info, and Note. The main table lists products with columns for Product, Packaging, Demand, Quantity, and a delete icon. One item is listed: Everest Jhol Momo with a demand of 1.00 and a quantity of 1.00.

Product	Packaging	Demand	Quantity	
Everest Jhol Momo		1.00	1.00
